

Executive Summary

Kish Investment Park is a revolutionary industrial development model located in the free zone of Kish Island. Designed for high-potential manufacturers and export-driven enterprises, the park offers an all-in-one ecosystem that includes land acquisition, full production support, guaranteed product purchase, and global export access.

1. Partnering with Valued & Experienced Manufacturers

We select only qualified and experienced manufacturers who are capable of producing export-grade goods. Our team evaluates each partner based on industry experience, product potential, and export feasibility.

2. Product Planning & Production Strategy

We guide manufacturers in identifying high-demand products for global markets. We assist in defining:

- Product types
- Volume targets
- Pricing benchmarks
- Packaging standards
- Technical specifications for exports

3. Guaranteed Purchase Model (USD-Based)

Kish Investment Park guarantees the purchase of 100% of your production according to the daily USD exchange rate. This eliminates your sales risk and ensures a stable, secure, and profitable operation.

4. Tailored Land & Unit Sizing

Based on your production plan, we assist you in selecting the optimal land size or industrial unit for efficient operations — from 2,500 m² plots and above.

5. Sale of Land / Units to Qualified Investors

Once the product plan and unit size are confirmed, we finalize the sale of land or pre-built units to the selected manufacturers under clear, transparent contracts.

6. Setup Support & Machinery Import Assistance

We provide full support in:

- Importing production machinery
- Sourcing local or international equipment
- Utility connections, permissions, and infrastructure

Our goal: Ensure you launch your factory smoothly and on schedule.

Kish Investment Park — Business Plan

7. Central Quality Control Center

Every product batch must meet our QC standards to be eligible for guaranteed purchase. We offer:

- Lab testing
- Packaging inspection
- Technical compliance checks

8. Independent Auditing & Production Compliance

Our audit team ensures that:

- Production matches the agreed terms
- Quality is consistent
- Delivery timelines are respected

This step ensures product readiness for global export standards.

9. Purchase of the Entire Production

Once the QC and audit process is complete, we purchase the entire production directly and issue payment in USD or equivalent based on the daily market rate.

10. Global Export & Distribution

We export your products to 100+ countries worldwide through our established logistics, warehousing, and distribution partners, maximizing exposure and market access.

Conclusion

Kish Investment Park is not just an industrial zone. It is an investment-secured, revenue-guaranteed, globally connected production ecosystem. We minimize your risk, accelerate your growth, and open your factory to the world.
